Professional Summary

Junior Full Stack Developer experienced in building scalable web applications using JavaScript, React, Java, and Spring Boot. Skilled in developing RESTful APIs, implementing authentication mechanisms, and contributing to code quality and testing in Agile teams. Eager to collaborate on impactful projects while continuously improving technical and team-oriented skills.

Technical Skills

Frontend: React, Redux, JavaScript (ES6+), jQuery, HTML5, CSS3, Tailwind CSS

Backend: Java, Spring Boot, Spring Security, RESTful APIs, JWT Authentication

Databases: PostgreSQL, SQL (joins, subqueries, indexing), JPA/Hibernate

Testing: Cypress, Jest, Selenium, JUnit, Test Automation (Java & Python), Mocking, Test Coverage

Tools & Workflow: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Chrome DevTools, Bash, Agile Methodologies

Architecture & Principles: OOP, MVC, SOLID Principles, DRY, KISS, Component-based Architecture, Responsive Design

Projects

- **E-Commerce API**
Spring Boot, Spring Security, PostgreSQL
Developed a secure RESTful API for an e-commerce platform with user registration, role-based access, and product/order management. Implemented JWT authentication and a layered backend architecture to ensure scalability, security, and maintainability.
- **Library Management System**
Java, SQL
Built a system to manage books, members, borrowing and returning processes, and rental fee calculations. Implemented advanced search, categorization, and separated user actions based on admin and reader roles.
- **Bluetooth LED Matrix Display**
ESP32, Unity
Created a Bluetooth-controlled LED matrix system operated through a Unity-based mobile app. Enabled real-time display of animations and custom scrolling text, integrating embedded hardware with mobile UI.
- **Personal Portfolio Website**
React, Tailwind CSS
Designed a fully responsive personal website with multilingual support and dark mode toggle. Used context providers to manage theme and language states, and presented detailed project descriptions and external links.

Experience

Full Stack Developer Trainee

Workintech | Remote | Jun 2024 – Jan 2025

- Completed a 960-hour full-time training in full stack web development.
- Built and deployed multiple web applications using React, Redux, Spring Boot, and PostgreSQL.
- Developed RESTful APIs, implemented JWT authentication, and applied layered architecture principles.
- Gained hands-on experience in Agile development, version control with Git, and testing with Cypress and JUnit.

Software Developer Trainee

Insider | Remote | Feb 2025 – Mar 2025

- Collaborated with the development team to verify and improve product functionality using JavaScript, jQuery, and DOM manipulation techniques.
- Supported UI behavior testing and contributed to resolving frontend bugs in interactive modules.
- Participated in automation efforts with Selenium and contributed to robust feature validation workflows.
- Gained experience in Agile product development by working closely with developers and product owners to ensure both UI/UX consistency and backend logic alignment.

Education

*Kocaeli University – Biomedical Engineering
(2020 – 2024) | GPA: 3.16*

*Istanbul University – Computer Programming
(2023 – 2025)*

Certifications

- Full Stack Developer Certificate – Workintech, 2025
- Tech Hub Bootcamp Certificate – Insider & Testinium, 2025

Languages

English: Advanced (C1)
